

# Navy Vigilant\*

Good dry down  
Michigan and Ontario Region

## NAVY BEAN

### Profile:

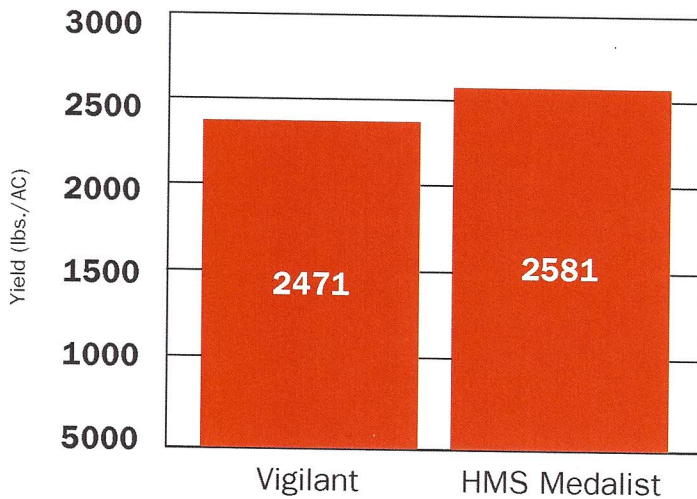

Vigilant is a broadly adapted navy bean variety ideally suited to Michigan and Ontario production regions. A consistent performer throughout the trialing process and in commercial production, its upright architecture, earlier maturity and excellent yield potential make it an excellent choice for Michigan and Ontario growers.

### Economic Profile:

Vigilant's economic benefit over HMS Medalist is its earlier maturity. Vigilant's earlier maturity allows the grower to replant or plant later, stagger harvest, and minimize risk due to weather; when paired with a longer season variety such as HMS Medalist. Vigilant dries down well and is one of the best candidates for **DIRECT HARVEST**.

### VIGILANT VS. HMS MEDALIST

Yield data based on 32yr./locations of data.  
Data from 2006-2011 with trials in Bay, Gratiot, Huron, Montcalm, Sanilac, Tuscola, Ruth, Pigeon, and more.

### TRIAL DATA

#### Vigilant

<b>Approx. Maturity</b>	93-97 days**
<b>Plant Type</b>	2A
<b>Approx. Seed Count</b>	2,400 seeds/lb.***
<b>Disease Resistance</b>	IR:BCMV ("I" gene)****

\* Plant Variety Protection for NA Vigilant is applied for. Unauthorized propagation of this variety is prohibited. Trialed under the temporary designation O2084.

\*\* Maturity data is based on 24 yr./locations of data.

\*\*\* Seed count data is based on 5yr./locations of data.

\*\*\*\* See reverse side for disease resistance abbreviation chart.

For customers around the world, ADM draws on its resources—its people, products, and market perspective—to help them meet today's consumer demands and envision tomorrow's needs.
